

AVMOR'S
BACTOL®
DISINFECTANT & SANITZER

Form: Clear Liquid

Color: Clear

Odor: Mild Amine

- Disinfectant sanitizer.
- Effective against many types of bacteria.
- Leaves a protective film on surfaces.

USE DIRECTIONS:

SANITATION: Thoroughly wet all surfaces. Treated surfaces must remain wet for 1 minute. Fresh solution should be prepared daily or when the used solution becomes visibly dirty. For mechanical applications, used solution must not be re-used for sanitizing applications. If used for sanitation of previously cleaned or food contact items, limit the level of active quaternaries to 200 PPM. (2 ml per litre). For heavily soiled or organic matter, a pre-cleaning step is required. Gross food particles and solids must be removed by a pre-flush, pre-scrape or pre-soak treatment. All surfaces must be thoroughly washed with a good detergent and rinsed with potable water before sanitizing solution is used.

DISINFECTION: IN HOSPITALS AND NURSING HOMES: Kills Staphylococcus Aureus, Salmonella Choleraesuis, Pseudomonas Aeruginosa and Listeria Monocytogenes when used in accordance with directions. Dilute 5 ml of concentrate per litre of water. Thoroughly wet all surfaces. Treated surfaces must remain wet for 10 minutes. For disinfecting floors, walls and other hard inanimate environmental surfaces. FOOD ESTABLISHMENTS: Equipment and surfaces subject to direct food contact must be thoroughly rinsed with potable water after cleaning with this product at a dilution level higher than 22 PPM of active quaternary ammonium. Avoid contamination of food during use. Do not store in food processing or food storage area. AUTHORIZED BY THE CANADIAN FOOD INSPECTION AGENCY FOR USE IN REGISTERED ESTABLISHMENTS.
