

BATTERY ACID CLEANING WIPES

NEUTRALIZES BATTERY ACIDS WITHOUT HARMING YOUR HANDS

Form: Cloth **Color:** White **Odor:** None

- Instantly neutralizes battery acid.
- Quickly goes to work to remove the corrosion and oxidation from the battery posts
- Convenient and easy to use.

This gentle but effective wipe will clean corrosion and other contaminants from battery terminals. The unique color indicator formula will turn from blue to pink, in presence of acid then turn back to blue once the acid is neutralized. The neutralizing fluid on the wipes does not cause foaming action and leaves a clean, protective barrier on the terminals and contact areas. Effective against corrosion, mineral deposits, oxidation and crusty buildup.

Other **Battery Acid Cleaning Wipes** Uses:

Car Battery

Rechargeable battery

Alkaline battery

Lithium battery

DIRECTIONS: Complete directions on product label.

Wipe the surface of the battery post, removing deposits. The blue wipe will turn pink in the presence of the acidic corrosion. Continue scrubbing the area until the wipe turns back to its original blue color. This will indicate that the corrosion has been neutralized.
