

BIO-CLEAN CONCENTRATE

Phosphate Free & Biodegradable General Purpose Detergent

- Completely **biodegradable** formula is **environmentally safe**.
- Excellent for use as a **total surface cleaner** and **degreaser** in restaurants.
- Multiple dilution rates provide **economical** options for **light to heavy cleaning jobs**.

BIO-CLEAN CONCENTRATE is a gentle, neutral pH concentrate made with biodegradable surfactants designed for general purpose cleaning on washable surfaces. **BIO-CLEAN CONCENTRATE** does not contain phosphates, so it will not harm painted, plastic, wood or upholstered surfaces, and it will not strip the finish or harm flooring materials. **BIO-CLEAN CONCENTRATE** is also great for hand washing of delicate fabrics, crystal and silverware.

Other Uses:

Walls, Floors, Fabrics Including Wool, Silver, Wood And Plastic Surfaces, Chinaware, Glass And Crystal, Bathroom Surfaces, Vinyl Surfaces, Upholstery, Kitchen Surfaces.

Directions:

For cleaning bathroom and kitchen surfaces, dilute 1 part detergent with 40-50 parts water, (2-3 ounces per gallon).

For mopping, use 1 ounce per gallon water.

For hand washing china, crystal and silver, use 1-2 ounces per gallon water.

For hand washing delicate fabrics, use 2-4 ounces per gallon water.
