

BIO-FLOW

Grease Trap Digestant

- *Minimizes frequency of pump-outs of grease traps.*
- *Improved bacteria cultures **promote faster action.***
- *Dual odour-control system **deodorizes** with a floral scent then continues working through bacterial digestion.*

BIO-FLOW's bacteria are fortified with free-enzymes to aid in rapid digestion of grease trap waste. Grease, oil, complex fats and proteins are quickly broken down into simple water and carbon dioxide. Drains are kept free of clogs.

Directions:

For Restaurants Open 24 Hours:

Drip, pour or pump **BIO-FLOW** directly into drains with Share's Grease Trap Pump during low flow periods, usually once during the day after lunch and once at night between midnight and 6 a.m. See chart below for daily dosage rates.

For Restaurants Open for Lunch & Dinner Only:

Drip, pour or pump **BIO-FLOW** directly into drains with Share's Grease Trap Pump between midnight and 6 a.m. See chart on label for daily dosage rates.
