

# CEILING TILE WHITENER

## ACOUSTICAL TILE REJUVENATOR

**Form:** Aerosol Liquid **Color:** Colonial White/New White **Odor:** Characteristic Solvent

- Heavy off-white hue covers dark stains while accurately matching the color of your tiles.
- Special nozzle allows paint to be applied both horizontally and vertically.
- Ideal for covering up black stains from air conditioner ducts.

**CEILING TILE WHITENER** is a special aerosol coating developed to cover water stains, discoloration and all kinds of spots on ceiling and acoustical tiling. Instead of spending excessive amounts of time and money on replacing tiles, **CEILING TILE WHITENER** provides you with an inexpensive alternative. Once dried, it covers marks with a true-to-color, non-flammable coating that will not crack, flake, fade or cause tiles to sag or warp. Try Share's **CEILING TILE WHITENER** to cover up embarrassing marks.

Use it to cover. . .

Water Spots

Stains

Blackening around air conditioning ducts

**DIRECTIONS:** Shake can vigorously for one minute after mixing ball is heard and occasionally during use. For best results can should be at room temperature - 70° to 90°F (21° to 32°C). Before spraying, be sure to cover floor, furniture and ceiling fixtures to prevent spotting. If the ceiling stain is near a wall, be sure to cover the near-by wall area. Hold can upright approximately 8 to 10 inches from tile and press the spray head to the side. Cover stain thoroughly. To prevent clogging and to clean the spray head for future use, turn the can upside down and spray for about 2 seconds, or until no more paint comes out of can.

**DEMO/TIPS:** Cover a stain or water spot on a ceiling tile, noting the thorough coverage and ease of application. Point out the sealing feature of the tile whitener not allowing the stain to bleed back through. Show the tile whitener does not cause the pores to plug up when using the **CEILING TILE WHITENER**.

**FORMULATED FOR:** Hospitals, schools, churches, hotels, motels, offices, stores, restaurants, cafeterias, theatres, locker and rest rooms, factories, institutions, police, fire, music, athletic and maintenance departments.
