

# CLING TYPE BOWL CLEANER

Cleans - Descales - Deodorizes Removes Rust And Rust Stains

- *Thick, clinging action provides longer contact time with soils for exceptional results.*
- *Uses the strength of phosphoric acid to remove dirt, soap scum and mineral deposits to brighten the dirtiest restroom surfaces.*
- *Inhibited phosphoric acid formulation is safe for use on all bathroom, shower and washroom surfaces.*

**CLING TYPE BOWL CLEANER** from Share is made with 18.5% phosphoric acid. It's one of the most powerful and effective bowl cleaners on the market. The thick, gel formula allows the detergents and cleaners to cling to surfaces for a more thorough cleaning of stains and grime. This makes **CLING TYPE BOWL CLEANER** a perfect cleaner for use under toilet bowl rims. It also removes lime, hard water deposits, uric acid salts and other common soils. When properly diluted **CLING TYPE BOWL CLEANER** becomes a versatile cleaner safe to use on many surfaces including toilet bowls, urinals, shower walls, swimming pools, drinking fountains, bath tubs, wash basins and lavatories.

## Other Uses:

(dilution)

---

Coffee Urn Cleaner (1:3), Rust Remover (Undiluted), Uric Acid Scale Remover (Use Undiluted), Brass Cleaner (1:5), Yellow Stain Remover (Undiluted), Tile & Grout Cleaner (1:3), De-watering Belt Cleaner (Undiluted) Drain Maintainer (Undiluted)

## Directions:

---

Lower water level in toilet bowl by forcing swab into the trap area.

Hold Swab over toilet bowl or urinal, apply **CLING TYPE** directly onto the swab.

Swab the entire bowl or urinal, particularly under rim.

Allow **CLING TYPE** to remain on surface for 3 minutes. Rinse bowl with swab.
