

DEODORANT BLOCKS

Destroys Objectionable Odours

- *Ready-to use.*
- *Individually wrapped.*
- *Easy to handle.*

Easy to handle and pleasantly scented, **DEODORANT BLOCKS** are an effective means of controlling a wide range of malodours. These deodorant blocks are compounded from pure para-dichlorobenzene and perfumes that have been specially selected for their pleasant scent and effectiveness. These blocks, when exposed to air, release a mild subtle fragrance that sweetens and freshens the air. **DEODORANT BLOCKS** are a must wherever crowds gather and wherever there is a chance for unpleasant odours.

These **DEODORANT BLOCKS** are compounded from pure para-dichlorobenzene and perfumes especially selected for pleasant scent and effectiveness. Individually wrapped, these blocks meet the highest of standards. When exposed to the air, they release a mild subtle fragrance that sweetens and freshens the air. **DEODORANT BLOCKS** are a must wherever crowds gather, wherever there's a chance for unpleasant odours.
