

DYNASTY LIQUID

BACTERIAL DIGESTANT

Form: Liquid

Color: Milky white

Odor: Floral

- Formulated with a liquid suspension containing protease, amylase, facultative aerobic and anaerobic bacteria cultures.
- Also use to control odors which stem from organic waste residing on bathroom surfaces and soiled rugs, carpets and flooring.
- Non-toxic, non-corrosive, non-polluting formula is completely safe to environment.

Consisting of special bacteria, **DYNASTY LIQUID** eat away at clogs, digesting organic material. It doesn't take long for blockages to clear out and water to freely pass through. Use **DYNASTY LIQUID** in bathroom sinks, kitchen sinks, grease traps, bathtubs and all common drain lines. Added extra fragrances eliminate any odors that may be released while clogged debris is being dislodged. For clearer drains, that smell much better, try **DYNASTY LIQUID** from Share.

Other **DYNASTY LIQUID** Uses . . .

Bathroom Floor Cleaner
Cattle Manure Liquifier
Chicken Hatchery Waste
Compost Pile Digestant
Garbage Disposals
Grease Trap Maintainer

Hog Waste Digestant
Kitchen Drains
Laboratory Drains
Portable Toilet Treatment
Sewage Lagoon Treatment
Urinal Surface Cleaner

DIRECTIONS: **DYNASTY LIQUID** is designed for use in maintaining drains and plumbing in good working condition. **DYNASTY LIQUID** should be used at the end of the day to allow maximum time for active cleaning. For most drains, an initial dose of 1 pint should be used followed by weekly additions of 4 ounces of **DYNASTY LIQUID**. For use in household septic systems, pour 1 pint of **DYNASTY LIQUID** into tank per week. This recommendation needs to be based on the gallon capacity of the septic tank.

For X-Ray Drains and Sinks: Add an initial treatment of 1 gallon of **DYNASTY LIQUID**, then 30 ounces per day for 6 weeks. After 6 weeks, **DYNASTY LIQUID** addition may be reduced to 20 ounces per day. **DYNASTY LIQUID** may be used through the 'Bio-Drain Station' which dispenses product at a rate of 5 ounces per minute.

DEMO/TIPS: spray liberally around a urinal to point out the pleasant fragrance and immediate neutralizing of odors. As with many products, the only demonstration is a fair trial, following label directions.

FORMULATED FOR: Schools, churches, cafeterias, resorts, camps country clubs, comfort stations, campgrounds, trailer parks, motor home/camper sales and service.
