- Special formula eliminates static to protect the loss of data.
- Eliminating static keeps dust from collecting on equipment.
- Towels help avoid the spread of illnesses in the work place by removing germs from frequently handled devices.

Wiping down electronic equipment with **ELECTRO WIPES/ANTI-STAT TOWELS** protects devices from static electricity, avoids dust and keeps surfaces free of germs. Each towel is pre-moistened with a special formula that neutralizes the effects of static electricity. This avoids the loss of important data stored on computer equipment such as hard drives. In addition, by eliminating static, less dust collects on surfaces to keep equipment cleaner longer. Lastly, **ELECTRO WIPES/ANTI-STAT TOWELS** help eliminate germs that linger on frequently handled equipment. Fewer germs reduce the chance of colds and other common illnesses from spreading in the work place.
