

FRESH SCRUB

WATERLESS HAND CLEANER WITH MICRO SCRUBBERS

Form: Liquid

Color: Green

Odor: Rain Forest

- Smooth, spherical micro-scrubbers will not damage skin.
- Made with a selected blend of ingredients to soften skin as it cleans.
- Requires no water for washing.

Share's **FRESH SCRUB** Waterless Hand Cleaner is formulated to remove ground-in dirt, grease and grime from even the most delicate hands. The spherical micro-scrubbers that are added to **FRESH SCRUB** are designed to gently penetrate your skin's pores and extract difficult, ground-in dirt. Hand cleaners that contain pumice can scratch or cut your skin, leaving them susceptible to dermatitis and other skin irritations. The smooth surfaces of **FRESH SCRUB's** micro-scrubbers have been designed not to scratch your hands, leaving them free from irritation. The blend of strong detergents work away grease and oil with just the wipe of a rag. The revolutionary dry emollient system found in **FRESH SCRUB** leaves no greasy residue that other hand cleaners leave behind, even those that require a water rinse. These same emollients also soften overworked hands as they clean. The freshest way to keep your hands soft and clean is with **FRESH SCRUB** from Share.

Will remove . . .

Dirt
Grease
Grime
Marker

Ink
Spray Paint
Law enforcement will enjoy it as a fingerprint ink remover
Excellent as a graffiti remover on masonry and concrete

DIRECTIONS: Squeeze a generous amount of **FRESH SCRUB** into palm and rub into soiled skin. Be sure to thoroughly clean around cuticles, fingernails and knuckles. Wipe hands clean and dry with cloth or paper towel or rinse with water.
