

GRAFFITI REMOVER

Vandal Mark Remover

- Bulk liquid formula **removes paints** (including enamel), **ink** and **permanent marker**.
- Convenient liquid can be used on all hard surfaces. **Contains no amyl acetate or methylene chloride** making product **safe to handle**.
- Formula is **non-toxic, non-flammable, non-hazardous, biodegradable** and **odourless**.

Now graffiti comes off as easy as it went on with Share's **GRAFFITI REMOVER**. This liquid graffiti remover is the exact same formula used in Share's pre-moistened **GRAFFITI TOWELS**. Because it's a liquid, **GRAFFITI REMOVER** provides you a convenient alternative to towels for cleaning vandal marks from hard surfaces. To apply, simply spray **GRAFFITI REMOVER** onto graffiti and in no time marks begin to dissolve and disappear. This amazing formula removes various paints (including enamel), ink and even permanent marker. Just like our towels, this cleaning formula is non-toxic, non-flammable and non-hazardous. Best of all, it contains no amyl acetate or methylene chloride, making it safe to handle with hands. In addition, **GRAFFITI REMOVER** is odourless and does not give off any nauseous fumes

Other Uses:

Bathroom Partitions, Phone Booths, Counters, Lamp Posts, Bus Stops & Seats, Stainless Steel, Aluminum Siding, Road Signs, Desks, Trains, Wall tile, Lockers

Directions:

DIRECTIONS FOR DISPENSING: Spray **GRAFFITI REMOVER** on to surface and lightly scrub in a circular motion. Rinse paint and graffiti residue with water. For porous surfaces, such as concrete and brick, saturate area with **GRAFFITI REMOVER** and allow to work for several minutes. Rinse paint and ink residue with a high pressure water rinse. Repeat these steps if necessary. As with any graffiti and paint, the longer it stays on the surface the harder it is to remove. **GRAFFITI REMOVER** works best if graffiti and paint is not allowed to cure more than 24 hours.

NOTE: When using **GRAFFITI REMOVER** on a pre-painted surface, initially test in an inconspicuous area to make sure paint is not removed along with the graffiti. **GRAFFITI REMOVER** may attack certain plastics.
