

GRAFFITI TOWELS

Graffiti & Paint Remover

- **Removes various paints** (including enamel), **ink** and **permanent marker**.
- **Ideal for non-pours** surfaces including phone booths, stainless steel, bus stops, lockers, billboards, glass, road signs, wall tiles, desks, trains, aluminum siding and lamp posts.
- Contains **no amyl acetate** or **methylene chloride**, making towels safe to hands. Formula is non-toxic, non-flammable, non-hazardous, biodegradable and odourless.

Now graffiti comes off as easy as it went on. These easy-to-use towels remove stubborn vandal marks in one quick step. Pre-moistened with an effective cleaning formula, **GRAFFITI TOWELS** remove various paints (including enamel), ink and even permanent marker with just a few strokes of a single towel. They are perfect for almost all non-porous surfaces. To aid in cleaning, each towel is made from an abrasive yet non-scratching fabric that helps lift away heavy marks. The cleaning formula in **GRAFFITI TOWELS** is non-toxic, non-flammable and non-hazardous. Best of all the formula contains no amyl acetate or methylene chloride, making them safe to handle. In addition, **GRAFFITI TOWELS** are odourless and do not give off any nauseous fumes.

Other Uses:

Bathroom Partitions, Phone Booths, Counters, Lamp Posts, Bus Stops & Seats, Stainless Steel, Aluminum Siding, Road Signs, Desks, Trains, Wall Tile, Lockers

Directions:

DIRECTIONS FOR DISPENSING: Remove lid. Pull up the towel at the centre of the roll by the corner and thread it through the 'X' from the underside of the lid. Replace lid onto container and close hinged cap to prevent towels from drying out. When removing a towel, pull at a 90 angle until towel tears away at perforation.

DIRECTIONS FOR USE: Use gloves provided to protect hands from paint and ink residue. Unfold a towel and lightly scrub in circular motion to begin dissolving paint and graffiti. Wipe up any remaining residue with a clean cloth. Repeat these steps if necessary.

NOTE: When using **GRAFFITI TOWELS** on a pre-painted surface, initially test in an inconspicuous area to make sure paint is not removed along with the graffiti. **GRAFFITI TOWELS** may attack certain plastics.
