

GREASE DIGESTOR

Grease Trap and Drain Maintainer

- Apply on a **regular basis** to keep traps clear.
- **Faster** than any competing **clog removal** products, digests grease, fats and organic waste.
- Contains no **harsh** solvents or **corrosive**, dangerous chemicals.

GREASE DIGESTOR, from Share, is an environmentally safe bacterial digestant designed to quickly consume and remove grease from grease traps. It thoroughly covers piping surface areas. Thus, an environmentally harmless mixture of stabilized enzymes and bacteria cultures are deposited over the majority of your plumbing to quickly loosen and liquefy grease clogs.

Other Uses:

Urinal Wall Maintainer, Sewage Digestant, Compost Pile Digestant, Portable Toilet Treatment, Farm Digestant, Sink Drain Deodorant, Septic Tank Maintainer, Bathroom Deodorant.

Directions:

For best results, drains and grease traps should be treated daily, at a time of lowest possible flow to allow time for the bacteria and enzymes to work. Use of a timed metering pump such as the **GREASE DIGESTOR** pump will ensure maxim performance.

<u>Grease Trap Capacity</u>	<u>Dosage</u>	<u>Interval Between 5Gal Pail Changes</u>
Less than 100 gals	10 ozs	60 days
101 - 250 gals	21 ozs	30 days
251 - 500 gals	42 ozs	15 days
501 - 750 gals	64 ozs	10 days
751 - 1000 gals	86 ozs	7 days
