

GREASE IT

MULTI-PURPOSE WHITE GREASE

Form: Aerosol **Odor:** Solvent **Color:** White

- Provides superior lubrication and reduces friction on all metal-to-metal applications. This durable, multi-purpose white grease will not freeze, melt, gum, cake or wash off.
- An exceptional coating for the prevention of rust and corrosion.
- Ideal for automotive and industrial applications. Heat stable to 360°F.

AUTOMOTIVE: Door and hood hinges, door stop latches, door striker plates, radio antenna, speedometer cables, window mechanisms, hood and trunk compartment springs, seat regulators, wiper mechanisms, ash tray channel glides, brake parts, seat tracks, distributor cams, etc.

INDUSTRIAL: Machinery and tools, chains, slides, cams, etc.

FARM: Implements, tractor machinery, chains, conveyors, etc.

HOME: Overhead garage door channels, fans, air conditioners, sliding doors and windows, garden and lawn equipment, tools, etc.

Use **GREASE IT** to lubricate . . .

Cables	Linkages
Chains	Marine Motors
Conveyors	Motor Cycle Chains
Couplings	Power Mowers
Elevator Cables	Sliding Doors
Fork Lifts	Springs
Garage Door Tracks	Tools
Gears	Tracks
Hinges	Window Slides

CONTAINS NO CHLOROFLUOROCARBONS.

DIRECTIONS:

SHAKE WELL BEFORE USING.

Spray on surface to be lubricated. Use handy extension tube for pin-point applications or hard to reach places.

DEMO/TIPS: Spray **GREASE IT** on half of your business card, spray the competitor's on the other half. Smooth out a portion of each product and show the customer how the competitor's product dries out completely leaving no lubricity.
