

HEAVY DUTY LIQUID DRAIN OPENER

ACID DRAIN OPENER

Form: Liquid

Color: Dark Brown

Odor: Odorless until mixed

- Heavier than water, it goes straight to clogs and immediately begins dissolving waste. Can be used in hospitals, hotels, motels, churches, schools, public buildings, etc.
- Works on sinks, toilets, sewer lines and grease traps.
- Formulated with sulfuric acid and buffer agents.

For an economical solution to obstructed pipes, all you need is a little **HEAVY DUTY LIQUID DRAIN OPENER** from Share. It cuts through organic waste matter in your plumbing that most liquid drain openers can't handle. Coffee grounds, hair, grease, soap and even cloth will break down due to the powerful acid found in **HEAVY DUTY LIQUID DRAIN OPENER**. Give it five minutes to act and you'll soon hear water slurping down the drain. Get **HEAVY DUTY LIQUID DRAIN OPENER** and your pipes will be free of any obstructions.

Other **HEAVY DUTY LIQUID DRAIN OPENER** Uses . . .

To Lower alkaline

Apply full strength on alkaline spills.

Alkaline Soil pH Adjustment

Use 2 ounces per gallon of water and apply this solution at one gallon per 350 square feet.

Lift Station Degreaser

Apply full strength.

Grease Trap Cleaner

Apply full strength.

DIRECTIONS: For completely clogged drains: Remove standing water before pouring. Pour 4 ounces of **HEAVY DUTY LIQUID DRAIN OPENER** into the drain. Using more than 4 ounces could generate excessive heat, causing toilet bowls to crack. Allow to stand 15 minutes. Carefully and slowly add 4 ounces of water. Wait 5 minutes then slowly run cold water. If drain is still clogged, repeat this process.

For partially clogged drains: Pour 4 ounces of **HEAVY DUTY LIQUID DRAIN OPENER** into drain. Let stand for 5 minutes. Repeat this procedure then flush several times.

DANGER: CONCENTRATED SULFURIC ACID. FOR PROFESSIONAL OR QUALIFIED MAINTENANCE PERSONNEL ONLY. NOT FOR HOUSEHOLD USE OR RETAIL SALE.

DEMO/TIPS: In a glass 2-cup measuring beaker add margarine or lard, cigarette butt, paper towel, toilet paper or any other organic matter available. Pour in some **HEAVY DUTY LIQUID DRAIN OPENER** and wait 1 minute. Add some cold water (carefully) and using the handle of your bowl swab gently stir the mixture. Watch the materials start to break down and feel how hot the bottom of the beaker has become. Flush down the toilet and wash your container with hot or warm water.
