

LEMINEE 64

(an Avmor Product)

ADVANCED NEUTRAL DISINFECTANT CLEANER

Form: Liquid

Color: Yellow

Odor: Lemon

LEMINEE 64 is an advanced disinfectant cleaner for healthcare and institutional facilities. It is one-step formulation that can be used for a variety of disinfecting, sanitizing, cleaning and deodorizing applications.

LEMINEE 64 is proven effective against HIV-1 and HIV-2, Streptococcus pyogenes (flesh eating strain), MRSA, VRE and VISA (Vancomycin Intermediate Staphylococcus Aureus). It is pH neutral formulation that performs as well as alkaline cleaners and will not dull finishes with repeated use. Leaves a fresh lemon scent.

DIRECTIONS FOR USE:

USES: Floors, walls, empty basins, showers, garbage cans, lavatory fixtures and other hard, non-porous surfaces.

APPLICATION: Remove gross filth and heavy soil deposits. Pre-clean all surfaces prior to disinfection.

TO DISINFECT: Thoroughly wet surfaces. Use 16 ml per litre of water. Allow surfaces to remain wet for 10 minutes in a single application, then remove excess liquid. Rinse with clean water. Can be applied with a mop, sponge, or cloth as well as coarse (trigger) spray. Prepare a fresh solution for each use then discard.

At this dilution the product kills the following organisms by AOAC Use Dilution Method: Salmonella Choleraesuis, Staphylococcus Aurea, Escherichia Coli.

TO SANITIZE: For use on hard non-porous surfaces such as counter tops. Preclean all surfaces prior to sanitizing. Use 4 ml per litre of water for a minimum contact time of 1 minutes. Can be applied by mop, sponge, or cloth as well as by coarse (trigger) spray.
