

# LIQUID DRAIN OPENER

Liquid Caustic Drain Opener

- *Does not produce the heat or fumes associated with other acid based drain openers.*
- *Suitable for use as a weekly **maintenance treatment**.*
- *Loosens organic waste, grease, fats, oils, lint, hair and even paper. **Safe for all types of plumbing.***

**LIQUID DRAIN OPENER** quickly works to dissolve and loosen the organic matter that clogs drains. Since it's heavier than water it sinks to the bottom of standing water for fast action on stoppages. This proven blend of concentrated sodium hydroxide and potassium hydroxide dissolve grease on contact. Unlike acid drain openers that form dense soap masses when they come in contact with grease deposits, **LIQUID DRAIN OPENER** rinses deposits clean away.

## Other Uses:

---

Dissolves: Grease, Oil, Cloth, Hair, Paper, Sludge, Organic Matter, Roots

Formulated for: Hospitals, Hotels, Motels, Nursing & Rest Homes, Institutions, Restaurants, Cafeterias, Schools, Churches, Municipal, Public & Office Buildings, Wastewater Treatment Plants. COMPLETELY SAFE FOR ALL TYPES OF PLUMBING. SEE PRODUCT LABEL FOR DETAILED APPLICATION INSTRUCTIONS.

## Directions:

---

FOR COMPLETELY CLOGGED DRAINS: Remove standing water before and pour 2 cups of **LIQUID DRAIN OPENER** into clogged drain, followed by 2 cups of HOT water. Let stand overnight. Flush drains thoroughly after removal of clog. For partially clogged drains, pour 1 cup of **LIQUID DRAIN OPENER** into drain, wait 30 minutes, then flush with HOT water.
