

# MULTI-METAL POLISH

## METAL CLEANER & POLISH

**Form:** Creamy Liquid

**Color:** Milky White

**Odor:** Slight Ammonia

- Contains ammonia degreasers, tarnish and stain removers and jeweler's grade polish.
- Contains no acids or acid ingredients.
- Recommended for schools, hotels, motels, municipal, industrial, city provincial and business office buildings, restaurants, cafeterias, churches, hospitals, nursing homes, janitorial service companies, stores, shops, etc.

**MULTI-METAL POLISH** is a mild creamy, abrasive polish that is designed to remove tough stains, water marks and tarnish from most decorative metals. The fine jeweler's grade polish brings out the natural shine on finer metals such as brass, bronze and pewter. **MULTI-METAL POLISH** is also just as effective on structural and industrial metals such as aluminum, copper and stainless steel.

Great for use on . . .

Brass

Bronze

Copper

Stainless Steel

Aluminum

Pewter

**DIRECTIONS:** Shake well before using. Apply **MULTI-METAL POLISH** to a clean cloth or sponge and spread onto metal's surface. Rub gently to remove heavy tarnish. Polish to a brilliant shine with a soft dry cloth.
