

NATRAKLENE

Solvent Degreaser

- Use in **parts washer** where water cannot be tolerated.
- Works well on metal parts and mechanisms **without causing problems**.
- Leaves behind **no filmy residue**.

Chlorinated solvents. They're great at getting things clean, but they also have some very hazardous and flammable drawbacks. So why put yourself and others in danger just to get your greasy equipment clean? Cut through grease, oil, tar and other grimy deposits quickly and safely with Share's **NATRAKLENE**. The unique blend of citrus extracts and aliphatic solvents found in **NATRAKLENE** are low in toxicity and have a high flash point. The all-natural citrus extract, d'Limonene, not only cuts through grease and grime, it deodorizes with the clean, fresh scent of oranges. Maintain your equipment and instruments with a strong, safe, citrus-scented degreaser. Get **NATRAKLENE** from Share.

Other Uses:

Cable Cleaner, Coil Cleaner, Electric Motor Cleaner, Brake Cleaner, Floating Vault Toilet Deodorant, Natural Paint Thinner, Parts Washer Solvent

Directions:

NATRAKLENE can be substituted into any cleaning and degreasing task that required chlorinated solvents or petroleum distillates in the past. **NATRAKLENE** can be used directly from the container to reduce employee exposure and reduce the need for wasteful mixing or measuring. Apply liberally to surfaces by dipping, spraying or brushing. Allow 5 to 10 minutes to penetrate heavy deposits. **NATRAKLENE** is ideal for use in parts washer systems where water cannot be tolerated. **NATRAKLENE** also makes an excellent floating lift station degreaser. The natural citrus extracts dissolve thick grease deposits, while the fresh scent of oranges makes lift station maintenance more pleasant. Use 1/2 gallon of **NATRAKLENE** per square foot of water surface. Spray or pour directly down lift station walls when water is at its lowest level. **NATRAKLENE** will produce a bright orange layer on the water surface.
