

# PEAPODS

## Bacterial Urinal Deodorizer

- *VOC Compliant, No ozone depleting ingredients.*
- *Gradual fragrance release ensures **24 hour odour control** for 30 days.*
- *Translucent design allows full view of drain.*

Maintaining the cleanliness of a bathroom is a constant battle. Share would like to offer their **PEAPODS** bacterial urinal deodorizer to help in the fight against bathroom odours. The screens use bacteria to help inhibit microbial growth and eliminate odours. As the screen is exposed to liquids, it will shrink, conforming to the shape of the urinal drain trapping potentially troublesome debris. This revolutionary design reduces splash-back while optimizing fragrance release. Each **PEAPODS** fragrance is gradually released over a 30-day period and is 10x more fragrant than ordinary vinyl urinal screens.

### Other Uses:

---

School Gyms, Open Pit Latrines, Clothing Factories, Airports, Bus Depots, Motels, Sewage Treatment Plants, Locker Rooms, Food Processing Plants, Public Restrooms, Hotels

### Directions:

---

Unwrap screen and place in urinal protrusion (points) side up. Remove and replace after 30 days.
