

S-SCENTS

Concentrated Water-Based Deodorizer Cinnamon and Cranberry

- *Eliminates odours by **surrounding and suppressing their molecular structure**.*
- ***Once foul odours are controlled**, rooms are filled with the pleasing fragrance.*
- *Can be diluted with water to create an **economical deodorizer** or used at full strength to overpower strong odours.*

Don't just cover up foul odours, eliminate them with Share's **S-SCENTS**. Unlike ordinary deodorizers that simply mask odours, **S-SCENTS** use advanced chemistry to surround the molecular structure of malodours and suppress obnoxious odours from permeating the air. A quick spray of **S-SCENTS** not only eliminates awful smells, but actually changes the mood of a room by filling it with the pleasing fragrance. They're also easy to use. Simply fill a spray bottle with an **S-SCENTS** fragrance at full strength and give it a few pumps – one or two squirts is all it takes to overcome malodours. Best of all, **S-SCENTS** will not harm surfaces because it contains no oils or staining ingredients.

Other Uses:

Restaurants, Theatres, Department Stores, Office Buildings, Factories, Gymnasiums, Hospitals, Nursing Homes, Doctor Offices, Dentist Offices, Locker Rooms, Health Clubs

Directions:

Use a dilution of 2 – 6 ounces of **S-SCENTS** per gallon of water to control odours in restrooms, kitchens, hotels, motels, nursing homes, hospitals, animal cages and laundry chutes. Also use this dilution to deodorize fabrics like carpeting and drapes. Mix **S-SCENTS** with carpet shampoo or add to rug extractor solutions to leave items smelling clean and fresh. Apply solution by spraying, mopping, sponging or wiping. May be used full strength to control tough odours in trash cans, floor drains, dumpsters and bed pans.
