

# SMOKEHOUSE CLEANER

## FOAMING CLEANER & DEGREASER

**Form:** Liquid

**Color:** Yellow

**Odor:** Detergent

- Dilution rates can be adjusted to compensate for the severity of your cleaning problems.
- Clinging foam stays where it is sprayed including walls and ceilings.
- Special ingredients dissolve, emulsify, suspend, saponify and peptize blood, protein matter, animal fats, tallow, carbohydrates, vegetable matter and food soils.

When cutting and processing meat, work areas easily collect waste products. To eliminate grease, fats and baked-on carbon deposits, use **SMOKEHOUSE CLEANER**, the foaming cleanser from Share. This concentrated cleaner can be diluted with water as recommended in the directions. When applied with foam generating equipment, the special formula in **SMOKEHOUSE CLEANER** creates a full lather that cuts through grease and grime in processing areas. The alkaline ingredients penetrate black carbon deposits to be easily flushed away with a clean water rinse. When a clean meat smoking room is at stake, use **SMOKEHOUSE CLEANER** from Share.

### Other **SMOKEHOUSE CLEANER** Uses . . .

Aircraft Cleaner

*Use at a 1 to 20 dilution.*

Air Hose Cleaner

*Use at a 1 to 8 dilution.*

Wax Stripper

*Use at a 1 to 20 dilution.*

Pitch Remover

*Use at a 1 to 4 dilution.*

Concrete Cleaner

*Use at a 1 to 10 dilution.*

Coil Cleaner/Degreaser

*Use at a 1 to 20 dilution.*

Hot Tank Stripper

*Use at a 1 to 30 dilution.*

Soot Remover

*Use at a 1 to 10 dilution.*

**DIRECTIONS:** **SMOKEHOUSE CLEANER** should be diluted before use. Recommended dilutions range from 1:1 to 1:10 with clean hot water, depending upon the severity of the job. **SMOKEHOUSE CLEANER** will produce a clinging foam when used with appropriate foam generating equipment. Apply the foam or diluted cleaner to surfaces and allow to react for several minutes. Then rinse thoroughly with clean water.
