

# SOY PEN OIL AERO

## RUST & CORROSION PENETRANT

**Form:** Aerosol    **Color:** Clear    **Odor:** Solvent

- Leaves a thin, residual film to help protect parts from further rust and corrosion.
- Powerful spray penetrates quickly to loosen corroded and frozen parts.
- The proven power of soy in a convenient aerosol. Does not contain any chlorinated solvents.

**SOY PEN OIL AERO** from Share is an all-natural rust and corrosion penetrant designed to loosen even the toughest of rusted parts. But while most penetrating oils use hazardous chemicals and chlorinated solvents to complete the task, **SOY PEN OIL AERO** is as safe as it is effective. Made from a unique combination of all-natural derivatives, corrosion inhibitors and moisture displacing agents, **SOY PEN OIL AERO** deeply penetrates rusted and corroded parts on contact. Within minutes the parts are loosened and moving freely in a complete range of motion. Remove rusted and corroded parts the safe and natural way with **SOY PEN OIL AERO** from Share.

**SOY PEN OIL AERO** is great to use for:

Locksmiths  
Municipalities

Plumbers  
Automotive Industries

**SOY PEN OIL AERO** provides protection:

Locks  
Exhaust Systems  
Rusted Nuts & Bolts

Pipe Fittings  
Parking Meters
