

X-STINK

Odour Counteractant
Bahamas - Cherry

- **Versatile** formula can be used as a spray mist or in scent cups.
- Formulated to **put an end to foul odours** and replace them with one of two fragrances: Bahamas and Cherry.
- A quick spray kills odours **continuously for hours**.

A powerful room freshener, you need only a small amount of Share's **X-STINK** to suppress offensive odours and deodorize any room. **X-STINK** is made with special freshening ingredients to allow **X-STINK** to overpower and destroy airborne odours. Manufactured as a concentrate, **X-STINK** can be used with a spray bottle to mist a room or poured over absorbing granules to create a long-lasting stationary air freshener.

Other Uses:

Office Buildings, Airport, Bus Depots, Wastewater Treatment Plants, Drains, Food Processing Plants, Pit & Chemical Toilets.

Directions:

Attach the trigger sprayer and adjust to a fine mist. Spray **X-STINK** into the centre and corners of room. Avoid spraying directly onto plastic surfaces.

For extended odour control, moisten the granules in scent cup with 6 to 12 pumps of sprayer (or pour directly from can) and place in the room where air currents will carry scent.
