

POLYMER CLEANER

AMMONIATED RESIDUE REMOVER

Form: Liquid Color: Yellow Odor: Detergent

- Ammoniated residue remover.
- Lifts and dissolves spilled water treatment chemical
- VOC compliant

POLYMER CLEANER is specially formulated to remove spilled wastewater treatment polymers and flocculents from pipes, concrete floors and walls. This carefully selected blend of ingredients neutralizes and disperses these sticky polymers for easy removal.

POLYMER CLEANER uses . . .
Concrete floors & walls

DIRECTIONS: Add 12 oz of **POLYMER CLEANER** per gallon of warm water. Mop or spray this solution directly onto spill, allow a few seconds for product to act and then rise thoroughly.
