

VOCSOLV AEROSOL

VOC Compliant Degreaser

- *VOC compliant degreaser with a **high flash point**.*
- ***Emulsifies** with water.*
- *Excellent for **removing grease and oils** with pleasant scent.*

VOCSOLV is the latest generation of VOC compliant degreasers. Formulated in response to increasingly stringent regulations, **VOCSOLV** complies with all VOC regulations but is strong enough for your greasiest parts. Safe enough to use on just about any surface. **VOCSOLV** removes grease and grime that lesser solvents won't touch. An elevated flash point reduces the risk of a fire, helping create a safer workplace. We've included unique ingredients that allow this product to mix with water so that you can easily and reliably rinse your parts clean.

Other Uses:

Carburetor Cleaner, Ink Remover, Vending Machine Cleaner, Electric Motor Cleaner, Typewriter Cleaner, Packaging Machine De-waxer.

Directions:

Spray or swab onto surface to be treated, allowing **VOCSOLV** to penetrate and flush away any grease, oils or other surface contamination. Wipe surfaces dry.
