

RP - NASO DEGREASER & DEODORIZER

Degreaser/Deodorizer

- *Plant extract solvents have a high flash point and low toxicity, **safe** and **environmentally-friendly**.*
- *Will **not harm** metals, concrete or most plastics.*
- ***Emulsifiers** allow you to wash away grease and grime with high-pressure water.*

To eliminate the problems associated with both grease and odours, you need Share's **RP - NASO DEGREASER & DEODORIZER**. The combination of natural and synthetic solvents work together to make **RP-NASO DEGREASER & DEODORIZER** a powerful and versatile cleaner. The specially formulated ingredients work to dissolve grease and oily deposits without harming surrounding equipment or creating hazardous waste by-products. While **RP - NASO DEGREASER & DEODORIZER** is safe, it is also powerful, both on greasy deposits and on foul odours. The natural solvent helps cut through grease and get out tough stains like tar. Dipentene also neutralizes offensive odours and replaces them with a pleasing scent of lime. **RP - NASO DEGREASER & DEODORIZER** from Share will naturally solve all your degreasing needs.

Other Uses:

(dilution)

Odour Control (strong dilution), Wax Stripper (full strength), Garbage Truck Deodorant (1:30), Laundry Pre-Spotter (full strength), Garage Floor Degreaser (full strength), Kitchen Degreaser (1:10), Filter Bed Deodorant (2% solution)

Directions:

Apply **RP-NASO DEGREASER & DEODORIZER** directly from the container. Allow to set for 5 to 10 minutes then rinse with water under pressure. To neutralize problem odours and to control problem grease accumulations in sewage treatment plants, use **RP-NASO DEGREASER & DEODORIZER** at a dilution of 1 part product to 5 parts water. To deodorize filter beds, spray a 2% solution daily over beds. For deodorizing, use 4 ounces of **RP-NASO DEGREASER & DEODORIZER** diluted in 1 gallon of water for instant deodorizing in refuse trucks, offices and restrooms.
