

NON FLAMMABLE SAFETY SOLVENT

- *Dries quickly and leaves no residue*
- *Non-flammable formula*
- *Dielectric strength of 50,000 volts*

NON FLAMMABLE SAFETY SOLVENT is formulated with low-conducting ingredients to make it ideal for use on motors and energized electrical equipment, even while they operate. It has a high dielectric strength of 50,000 volts, and is potent enough to remove dust, dirt, oil, and tar. Its fast-drying formula won't corrode delicate parts or leave behind any residue.

NON FLAMMABLE SAFETY SOLVENT IS EFFECTIVE AGAINST oil and grease, dirt and grime.

Other Uses:

Electric motors , Power tools , Ice machines, Refrigeration units , Generators ,Vending machines

Directions:

Complete directions on product label

Spray directly on surface with a heavy wet spray. Use force of spray to loosen soil. Wipe clean.

Safety
